

2007 SUMMER SPECIAL

Fish 'n Ships

Bay Tours with a difference!

TOUCH! SMELL! SEE and HEAR the sounds of Port Philip Bay!

Have you ever wondered what was lying just beneath the surface of those blue expanses of Bay or what part it played in the defense of our city? And how can we all help to maintain it for the future? Our team of qualified educators and naturalists can help you find all these answers! Rock pool rambles, coastal walks, personalised history tours through Point Nepean fortifications, or on-the-water charters aboard the purpose built 'MV Rorqual', will provide everyone with a hands-on experience to relive our past, or get 'up close and personal' with some of the unique marine life!

Bay Discoveries - on the water

Shipwrecks, Diving Gannets, marine mammals, sea stars and

Information on board 'MV Rorqual', will be targeted towards the groups' interests and there will always be time to stop and observe some of the unique features of the Bay. These may include Pope's Eye, 'Chinaman's Hat', South Channel Fort, Mud Island and Queenscliff. It's your tour!

And you don't need to get wet to meet some of the characters under the surface! They can be brought to you - marine animals up close!

Making a difference!

Friendly, informal, interactive experiences

Educating students on the marine environment, has been our priority for 27 years. That business is sold so now we can expand the hands-on programs that we are passionate about. Come with us, and we'll show you the hidden wonders of our marine environment, first hand. **Give us a call and let's have a great day on the Bay together!**
